

Work SMARTER not harder & achieve more

Removing Barriers to Success

Suitable for any leader or manager looking to drive performance within their team

Virtual Classroom

2 x 75 Minute Sessions

In this training we will focus on what stops people and teams from achieving their full potential. This course is suitable for any Leader or Manager looking to drive performance within their team. Whether it is a new initiative that struggles to show progress or someone under-achieving (particularly when we believe they are capable of achieving more), it can be especially frustrating when so much time and energy has been invested and you are not seeing results.

For many, as time goes by this “widening gap” between performance and expectations simply results in losing ground and falling further behind the plan.

Our research has revealed that there are 11 barriers which frequently prevent people and teams from delivering a better performance. We will share our insights with you and explore which barriers are prevalent within your team. To do this we will concentrate on:-

- What aspects of productivity & performance should I concentrate on?
- What are the 11 barriers to better performance?
- Why do they arise?
- How can they be quickly & easily identified?
- Which of the 11 barriers are impacting your team (or key initiatives)?
- The 11 barriers tool
- Applying a range of tips & techniques designed to help you use the tool effectively & efficiently.

This is a highly practical & interactive virtual workshop with the aim of giving people the confidence they need to overcome theirs & other people’s challenges; as well as shed light on problems which up until now have proved difficult to solve.
